

1. 워크벤치 COUNTRY 테이블 조회 - IMPORT 버튼 클릭

2. Browse 클릭 - 파일 선택 - Next

3. Use existing table 선택 - Next

The 'Table Data Import' dialog box is shown in the 'Select Destination' step. It has a title bar with standard window controls. The main area is titled 'Select Destination' in blue. Below it, the instruction 'Select destination table and additional options.' is followed by three options: 'Use existing table:' (selected with a radio button), 'Create new table:', and 'Truncate table before import' (unchecked checkbox). The 'Use existing table:' option has a text field containing 'userdb.country'. The 'Create new table:' option has a dropdown menu showing 'userdb' and a text field containing '국가명_국가코드'. At the bottom right, there are three buttons: '< Back', 'Next >' (highlighted with a red rectangle), and 'Cancel'.

Select Destination

Select destination table and additional options.

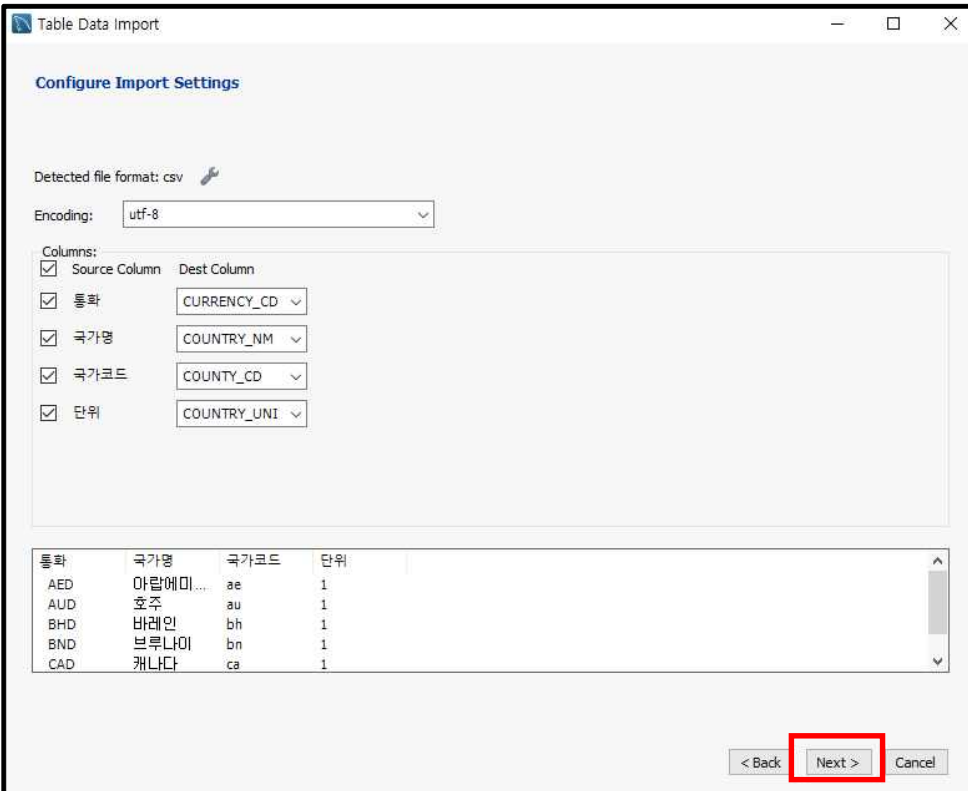

☒ Use existing table: userdb.country

☐ Create new table: userdb . 국가명_국가코드

☐ Truncate table before import

< Back Next > Cancel

The 'Table Data Import' dialog box is shown in the 'Configure Import Settings' step. It has a title bar with standard window controls. The main area is titled 'Configure Import Settings' in blue. Below it, the 'Detected file format:' is 'csv' with a settings icon. The 'Encoding:' dropdown is set to 'utf-8'. The 'Columns:' section has a table with 'Source Column' and 'Dest Column' headers. It lists four columns: '통화' (mapped to CURRENCY_CD), '국가명' (mapped to COUNTRY_NM), '국가코드' (mapped to COUNTRY_CD), and '단위' (mapped to COUNTRY_UNI). At the bottom, there is a preview table showing data for AED, AUD, BHD, BND, and CAD. At the bottom right, there are three buttons: '< Back', 'Next >' (highlighted with a red rectangle), and 'Cancel'.
